

Q8 Mahler Cool Premixed 4060

Engine coolant specifically designed for stationary gas engines

Description

Q8 Mahler Cool Premixed 4060 is ready for use engine coolant, the product should not be diluted with water

Specifications

- Q8 Mahler Cool Premixed 4060 is approved by:
- GE Jenbacher

OEM Approvals

Recommendations

Benefits

- Long life coolant, lasts longer than the normal cooling water products
- Outstanding heat-transfer performance, specifically designed for stationary gas engines
- Superior high temperature performance
- Excellent protection of the cooling system in a wide range of operating conditions
- Increased life time of cooling water pump
- Outstanding protection against cavitation in the cooling water system
- Reduced deposit formation in the cooling water system
- The product is compatible with elastomers and plastics

Properties	Method	Unit	Typical
Colour	Visual	-	Fluorescent orange
Density, 20 °C		g/ml	1.056
Appearance	Visual	-	Bright & Clear
pH Value	D 1287	-	8.2
Freezing Protection	-	°C	-27

The figures above are not a specification. They are typical figures obtained within production tolerances.
